

# Episode 6: Goin' Green!

Take a wool sweater and turn it into a sleek, sling purse!

Once you have cut the sweater as instructed in Episode 6, then the rest of the "sewing" is easy! Here's a refresher of the steps we did after cutting!

The wrong side of the sweater is facing up.

Bring the hem of the sweater up to the underarm. Sew as shown in dashed lines.

Fold each arm in half. Sew from the underarm to cuff.

Fold down the top of the sweater. Cut slit for a button. Sew button by hand and bring the button through the slit.

Bring arm handles together as described in Episode 6.
